Lightfast*	71%
Blendable	3
Colour intensity	5
Layering	5
Point strength	4
Available individually and in blisters, wooden boxes and tins	
*Lightfast, colours remain the same for 100 years under museum conditions	

An innovative formulation that acts like ink, delivering intensely vibrant colours that dry permanently and do not wash out, for exceptional layering.

Derwent Inktense Pencils are intensely vibrant, watersoluble pencils that have been formulated to dry permanently, offering exceptional layering capability without dissolving previously dried layers of vivid colour. Colours are highly-pigmented and can be used dry, or mixed with water which is when the colour becomes even more intense. The colours retain vibrancy after drying, creating ink-like effects. Derwent Inktense is highly versatile and can be applied to many porous surfaces including ceramic, wood and fabric. Suitable for use on paper and fabrics for a wide range of fine art and craft projects.
